

**AMENDMENTS TO THE CLAIMS**

**Claims 1-46 (Canceled)**

**Claim 47 (Currently amended)** A fold open box for protecting a video, the box comprising:

a first section having a planar face, a first cavity, a first interlocking portion around the first cavity, and a cut out portion in the planar face of the first section over the first cavity;

an at least partially transparent window attached over the cut out portion of the planar face of the first section;

a second section having a second planar face, a second cavity sized to receive and hold a video therein, and a second interlocking portion around the second cavity, wherein the first and second interlocking portions engage to maintain the first section in registry with the second section when the fold open box is closed;

a toy in the first cavity positioned for display through the at least partially transparent window, wherein a portion of the cutout portion is shaped to correspond to a shape of at least a portion of the toy; and

a video carried in the second cavity, wherein the shape of the toy corresponds to the shape of a character portrayed in the video.

**Claim 48 (Currently amended)** The fold open box of claim 47 further comprising a planar wall joining the first and second sections via first and second hinges and wherein the planar wall further comprises a raised generally rectangular portion between the first and second hinges.

**Claim 49 (Currently amended)** The fold open display box of claim 47 wherein the box includes a speaker for generating sound related to the ~~character~~ toy in the box.

**Claim 50 (Previously presented)** The fold open box of claim 47 wherein the window is cut out to match at least a partial profile of the toy and wherein the toy includes a sound generator such that on depression of the character toy a sound is generated.

**Claim 51 (Currently amended)** The fold open box of claim 47 wherein the toy ~~has~~ is a three dimensional figure having the shape of a the character depicted in the video.

**Claim 52 (Currently amended)** The fold open box of claim 51 wherein the cutout has a shape corresponding to a portion of the character depicted in the video.

**Claim 53 (Currently amended)** A fold open box for protecting a recorded media, the box comprising:

a first section having a planar face, a first cavity, a first interlocking portion around the first cavity, and a cut out portion in the planar face of the first section over the first cavity;

an at least partially transparent window attached over the cut out portion of the planar face of the first section;

a second section having a second planar face, a second cavity sized to receive and hold a recorded media therein, and a second interlocking portion around the second cavity, wherein the first and second interlocking portions engage to maintain the first section in registry with the second section when the fold open box is closed;

a ~~toy~~ three dimensional figure in the first cavity positioned for display through the at least partially transparent window, wherein a portion of the cutout portion is shaped to correspond to a shape of at least a portion of the ~~toy~~ figure; and

a recorded media carried in the second cavity, wherein the three dimensional figure corresponds to a character depicted in the recorded media.

**Claim 54 (Currently amended)** The fold open box of claim 47 53 wherein the ~~toy~~ figure has a shape of a character depicted in the recorded media.

**Claim 55 (Previously presented)** The fold open box of claim 54 wherein the cutout has a shape corresponding to a portion of the character.
